

Virginia Chiropractic Association

## *Important New Benefit For VCA Members!*

The VCA is excited to announce the newest benefit of membership, launched in February, 2005:

### What is VCA doctalk?

*VCA doctalk* is an e-mail discussion group or "listserv" for VCA members only that allows you to come together on an ongoing basis to ask questions, share information, explore new ideas, and gain practical solutions to common problems. The purpose of *VCA doctalk* is to enhance communication and dialogue among Virginia DCs and create a more cohesive chiropractic community among members. This might just become your most valuable VCA benefit!

### How Does it Work?

You simply send an e-mail with your question or topic to the *VCA doctalk* address. All subscribers will receive it and have an opportunity to respond.

### "Technologically Challenged?"

No problem! It's easy to join in the discussion or just scan what your peers across the state are talking about.

If the VCA has your e-mail address, you are automatically subscribed when you join or renew. Instructions and guidelines for participation are sent to you via e-mail. If you decide you *aren't* interested in *VCA doctalk*, it's easy to unsubscribe, too – as well as to rejoin later at any time. Not sure if VCA has your e-mail address? Call the office at 540-932-3100 or e-mail [vcacentral@direcway.com](mailto:vcacentral@direcway.com).

**New Ideas... Shared Knowledge... Practical Solutions... *VCA doctalk!***
