FOUNDATIONAL COURSES

Self-paced learning
FL | Montreal | CO | AZ
Save \$250 using code
OCA250

Functional Neurology Essentials is the most effective way to learn and start implementing clinical neuroscience in your practice. This program teaches a brain-based model for manual therapies, rehabilitation strategies, and performance optimization techniques, allowing clinicians to better serve their current patient population and attract a new patient base.

CORE PROGRAM

Self-paced learning
Live stream EST | FL

Clinical Neuroscience Program
(CNS | Diplomate program)

The CNS delivers expert-level diagnostic skills and aids in the development of individualized approaches to health care.

Our clinical neuroscience (CNS) program prepares you for the diplomate exam through the ACNB and the fellowship exam from the ACFN while also raising your clinical excellence so you can serve your patients at the highest levels possible.
carrick.us/CNS

- CNS01 – Embryology & Physiology of the Nervous System
- CNS02 – The Proprioceptive & Neuromuscular System
- CNS03 – Peripheral Nervous System
- CNS04 – Spinal Cord
- CNS05 – Cranial Nerves
- CNS06 – Autonomic Nervous System
- CNS07 – Intracranial and Vascular Disorders
- CNS08 – Cerebellum
- CNS09 – The Ocular Motor System
- CNS10 – The Vestibular System
- CNS11 – Frontal & Parietal Lobes
- CNS12 – Temporal & Limbic Lobes
- CNS13 – Neurophysiology of The Respiratory/Digestive & Reproductive Systems
- CNS14 – Neurology of Movement
- CNS15 – Neurology of Pain
- CNS16 – Headaches & Face Pain
- CNS17 – Neurochemistry & The Endocrine System
- CNS18 – Principles of Neuroradiology
- CNS19 – Principles of Neurological Examination
- CNS20 – Principles of Neurorehabilitation

SPECIALITY PROGRAMS

DYSAUTONOMIA PROGRAM

VESTIBULAR REHABILITATION PROGRAM

MASTERING MIGRAINE PROGRAM

NEUROCHEMISTRY & NUTRITION

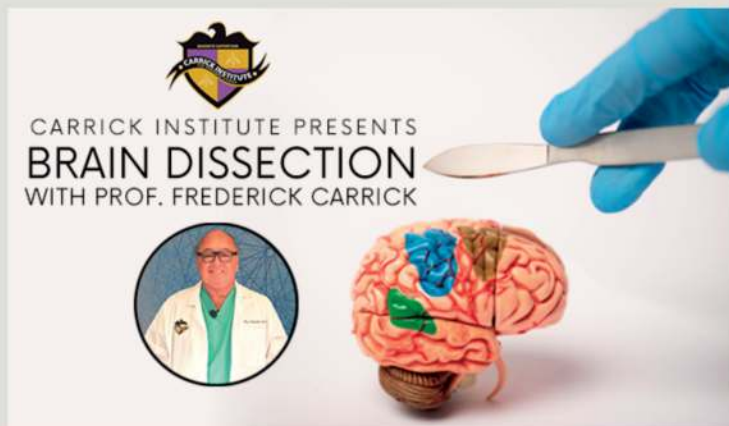

NEURODEVELOPMENTAL DISORDERS PROGRAM

FOR ADVANCED CLINICIANS...

Carrick Institute offers specialty programs in:

- Movement Disorders
- Eye Movements
- Qeeg and Neurofeedback
- Efferent Essentials
- Basal Ganglia
- Brain-Based Adjusting
- Neuro-Visual Therapy Program
- Neuroscience Research Updates
- Neurology Primers
- Synapse Sessions
- International Symposium on Clinical Neuroscience
- Acupuncture

Orlando FL | July 21-23, 2023

Florida | May 19-21, 2023
Calgary | September 29-October 1
Colorado | February 23-25, 2024
